

Tell us your story!

Are your **parents separated**? And do or did they not agree on **which country** you should live in and who should (mainly) **look after you**? We would be very happy to talk to you!

We are a research team at the University of Vienna. We are interested in your **personal experiences**, thoughts and challenges!

The interview

- can take place in person or digitally.
- is confidential and anonymous.
- is possible in different languages.

You will
receive **100€**
for your
participation

If possible, we would also like to talk to other people in your family about this topic! They will also receive €100.

We are looking forward to talk to you!
Ask us anything you need before deciding!
